TRAINING

Training nights for winter will be on a Monday night. Times will be notified once teams are confirmed, pending court and coach availability.

TRIALS

PHOS Netball Club trials players so that we can place them in suitable teams for nomination into competitive SAUCNA age divisions. This also allows teams to be provided with enough attackers, defenders and mid court players. It results in all players having the opportunity to train and play with others equal to their skill level and experience and provide for appropriate development opportunities.

TRIALS (continued)

Please provide all information requested on the registration form, including playing positions. Players should nominate positions that they consider their strongest and that they wish to play during the season. We also ask past coaches for a comprehensive assessment of each player, to give an overall picture of a players' skill, performance and participation in the team.

Trials are conducted in the form of 10 minute games. Players will participate in simulated match conditions so that selectors can assess footwork, ball skills, game strategy, strength, height, spatial awareness and understanding of the rules.

We try (where possible) to trial the players in their preferred positions, based on the information provided. Some players only need to take the court for one rotation while others will need to be seen a few times so that selectors can see where they best fit. Success at trials is unrelated to the amount of court time. Selectors are looking at ability and the teams as a whole so that all players are in the most suitable team and correct division.

All our selectors are highly skilled and impartial. During trials, we ask that players and parents do NOT approach selectors or organisers. All questions should be directed to the President via email before or after the trials: president@phosnetball.com.
